## **Partners Announce Start of Operations at Solar Power Plant in Watarai, Mie Prefecture**

Kyudenko Corporation, Tokyo Century Corporation, Fukuoka Jisho Co., Ltd. ,Taisei Corporation ,and Kyuden Mirai Energy Company, Incorporated, which recently completed construction of Miya River Watarai Solar Park, a solar power plant whose output of about 72 megawatts makes it one of the Chubu region’s largest such installations\*<sup>1</sup>, are pleased to announce that the facility, which is being run by Miya River Watarai Solar Park G.K. , an operating company established jointly by the partners, has begun operations.

A dedication ceremony was held at the site today.

The project, which involved the installation of about 170,000 solar power modules (for a total capacity of about 72 megawatts) at a site of about 140 hectares in the town of Watarai in Mie Prefecture, will sell the power it produces to Chubu Electric Power Miraiz Co., Inc., under Japan’s feed-in tariff program for renewable energy.

Going forward, the facility will strive to act as a good neighbor in the region, helping to realize carbon neutrality by carefully managing safety and ensuring its ability to operate in a stable manner over the long term while earning the understanding and cooperation of local government, including officials in the towns of Watarai and Tamaki as well as Mie Prefecture.

\*1 No. 2 among operating solar power plants in the Chubu region.

(As of March 31, 2023, according to the website used by the Agency for Natural Resources and Energy’s website to release information about business plan certification)

\*2 Assuming 247.8 kWh of monthly power use per household (source: “About power data,” The Federation of Electric Power Companies of Japan).

## Overview of power business

Power plant name	Miya River Watarai Solar Park Power Plant
Location	1491 Minamitani, Kamikugu-aza, Watarai-cho, Watarai-gun, Mie Prefecture and other locations
Output	Total solar panel output: 71,994.7 kW; site output: 59,900 kW
Expected annual power production	About 82 million kWh (Equivalent to the annual power consumption of about 27,600 households*2)
Timeline	February 18, 2019: Start of construction April 30, 2023: Completion of construction May 1, 2023: Start of operations

## Overview of operating company

Operating company name	Miya River Watarai Solar Park G.K
Address	1476-5 Tanahashi, Watarai-cho, Watarai-gun, Mie Prefecture
Date of establishment	July 04, 2014

## Overview of investors

Company name	Kyudenko Corporation
Address	1-23-35 Nanokawa, Minami-ku, Fukuoka
Date of establishment	December 01, 1944
Business(es)	General facilities installation and service

Company name	Tokyo Century Corporation
Address	3 Kanda-Neribeicho, Chiyoda-ku, Tokyo
Date of establishment	July 01, 1969
Business(es)	Businesses in Equipment Leasing, Automobility, Specialty Financing, International Business, and Environmental Infrastructure

Company name	Fukuoka Jisho Co., Ltd.
Address	10th floor, Canal City Business Center Building 1-2-25 Sumiyoshi, Hakata-ku, Fukuoka
Date of establishment	July 19, 1961
Business(es)	Real estate business

Company name	Taisei Corporation
Address	Shinjuku Center building, 1-25-1 Nishi-shinjuku, Shinjuku-ku, Tokyo
Date of establishment	December 28, 1917
Business(es)	General contracting services

Company name	Kyuden Mirai Energy Company, Incorporated
Address	8th floor, KMG Building, 3-2-23 Yakuin, Chuo-ku, Fukuoka
Date of establishment	July 01, 2014
Business(es)	Renewable energy business, retail electricity business
